

Retirement home "Ellisium" has 119 bedrooms that are precisely projected and fulfil all international specifications and requirements. The complex has different type studios: single and double rooms with capacity up to 160 people. Each apartment has its own bathroom. In order to make everyday life easier for its patients, the Koplex offers many opportunities for recreation and relaxation, such as: game room, restaurant, indoor pool, ambulance and medical advice, steam bath, sauna, rehabilitation, solarium, massage center and pharmacy. Each floor has a room for the wait staff. There are also rooms for guards and carers. There are three elevators with wheelchair ramps. The building consists of three blocks: A, B, C and D, where an indoor swimming pool will be located. Architecturally, the exterior of the building aims to combine modern technology and uniformity of the parts with the roof projections recessed into the area for conventional materials such as wood, stone and exterior plaster and native architectural elements. The area where the private property is located, is characterized by an exceptional scenic sight for Pirin mountains. The natural treasures and abundance of water contribute to the healing treatment of many diseases of the musculoskeletal system, the cardiovascular system, lung problems and many others. Close to the Kompleks are some of the best ski and eco pathes to find, which are a wonderful prerequisite for sports and tourism. Right next to it is one of the largest golf courses in the Balkan Peninsula.

GOLF

"Pirin Golf & Country Club" has officially opened in 2007, in the "Betolovoto" area, which is about 1100 hectares. It is located in the mountains, and currently, this is the largest of its kind in Bulgaria. The luxury club offers conditions of a five-star hotel: two golf areas, one of the most modern golf schools in Eastern Europe, restaurants and bars, shops and a variety of different sports.

BANSKO

Bansko combines the traditions of an mountain town and a modern town and it has all sorts of conveniences for its numerous visitors. The opportunities for sports and recreation in winter and summer attracts Bulgarians and foreigners all year round. Bansko is a museum city that has kept all its monuments. The traditions here are strong and famous people from Bansko have contributed much to the Bulgarian history and culture.

Winter in Bansko

There is a snow from December until April. Thanks to the modern Ski facilities there are good conditions for winter sports. The ski slopes are from 1,100 up to 2,550 meters high and their length is about 50km. Skiers can ski on all 17 slopes with various difficulty levels and each of them has up to 16km length. You can reach them by 23 different lifts. The ski resort offers also a path for night skiing, as well as a track and shooting range for biathlon.

Climate

The climate is with Mediterranean influences. The summer is relatively short and cool. The climate in Bansko and Raslog is very healthy and temperate - cool in summer and cold in winter, with plenty of sun and snow cover even in the beginning of the summer. This makes Bansko an attractive place for various types of tourism and makes it a desirable destination in all seasons. The terrain is mostly mountainous, and the higher parts of the mountains are alpine.

Summer in Bansko

In the summer Bansko is already one of the most popular resorts in Bulgaria, because it covers the most beautiful and exclusive part of the mountain Pirin, and also because of the cool weather, the fresh air and the endless entertainment and sights. More and more tourists, business people and athletes prefer to come here and enjoy the natural wonders and the unique atmosphere.

Raslog

Raslog is a city in the southwest Bulgarian region of Blagoevgrad and is located near the town of Bansko - only 6 km far from it. The town attracts tourists not only with its beautiful surroundings, but also with preserved buildings - houses, shops, streets, etc. Raslog is located in a mountainous area in the center of the Raslog valley between three mountains - Rila, Pirin and Rhodope. The tourists can visit the three mountains. Bansko is a world famous winter sports area and this helps to develop tourism in Raslog and the other cities that are nearby. Raslog is an important transportation hub. There are regular buses to Bansko, Gotse Delchev, Velinograd, Sofia, the capital of the country and many other places. The city is the administrative center of the municipality of Raslog.

Raslog

Water resources

The Raslog region is famous for its abundance of water. Many rivers and tributaries flow through the area, such as Mesta, Istok, Yasuo, Kruscha, White River and Godlevska River. Groundwater and karst cracks determine the largest water wealth of the region. There are also deposits of thermal springs with remedies for various diseases.

Flora and fauna

Raslog region covers a large part of the National Park "Pirin". The nature here is very beautiful and diverse. The area is dominated by a variety of coniferous and deciduous trees. In the area you can meet many protected species. In many lakes, rivers and streams is the most typical trout. The reserve is the only place in Bulgaria where you can find Edelweiss.

Mineral water

The presence of numerous mineral springs transforms Raslog into a desired spa destination. The mineral water is used for spa purposes. It also helps with the treatment of various diseases. The mineral springs are rich in fluorine, sulfate and magnesium ions, calcium and metasilicium acid, which help to retard aging. The water has a temperature of 30 to 57 degrees depending on the source and there is a high flow rate. The mineral water in this region is beneficial for the treatment and prevention of musculo-skeletal disorders, chronic gynecological diseases and skin diseases. It plays an important role in maintaining the body acid, which is beneficial for digestion. Calcium and fluoride ions help support and strengthen teeth and bones. In addition, inhalation therapy has beneficial effects on lung disease.
